**THE FARMER'S WIFE DISTILLERY TO RE-RELEASE THE SUMMER SPRITZ GIN**

Following a rapid sellout of the first release in 2020, the team at The Farmers Wife Distillery are set for the second release of the limited edition Summer Spritz Gin.

“The response to the first release was quite astounding! It became a regular addition to summer social gatherings right across Australia as many of our gin loving friends experimented with making the perfect summer cocktail. It was exciting to see people take to the flavours of this gin and want to share it with their friends and family.” Says Kylie Sepos, Founder and Head Distiller.

The limited edition Summer Spritz Gin, has clean characters of lemon and lime which are emphasised by the acidity of fresh pressed sauvignon blanc grapes, sourced from our friends at Tamburlaine Organic Winery. This is followed by grassy herbal notes of native sage and a sweet floral finish of honey and passionfruit.

Combining the 13 signature botanicals with fresh pressed Sauvignon Blanc grapes results in a flavour that perfectly encapsulates the essence of summer. Paired with a good sparkling wine in a cool summer spritz, this gin is the ideal addition to the socialising and festivities of the warmer months.

“Being able to gather together with those we love is what life is all about - and something I no longer take for granted! I crafted this gin as an ode to the joy of gathering together.”

If the previous limited edition releases are anything to go by, the Summer Spritz Gin will not be available for long.

Available online at [farmerswifedistillery.com.au](http://farmerswifedistillery.com.au) or at select stockists from 10 November 2021.

## **ABOUT US**

### **A Note From the Farmer's Wife**

The dream of the Farmers Wife Distillery was first formed while sharing a fine gin with friends on a getaway to Tasmania. Living in the country, as 3rd generation farmers, we were inspired to share our love of country life and our passion for creating something unique. I wanted to create something that encompassed my love for growing food and gardening, my love of family, friends and community and the idea of mastering different flavours to produce something unique and special.

The sense of place to gather is as important as the creation and we would love for you to join us on our journey as we build and grow a home for the Farmer's Wife spirits and most importantly to be inspired by the magic of craft distilling.

We are committed to making gin the way gin used to be made, by a one shot distillation in a traditional copper pot still. Our beautiful still was commissioned to Peter Bailey of Hobart Tasmania and was precariously road tripped home to Allworth, NSW by the farmer and his wife. Copper is essential to the distillation process as the chemical reaction results in a softer and smoother spirit.

We rest our 13 signature botanicals on the finest quality neutral Australian sugar cane spirit. This spirit provides a clean blank canvas upon which the Farmer's Wife can weave her botanical magic. We keep only the very hearts of the spirit and then blend it with purified rainwater harvested from the farm.

Kylie
