#### A note from the Farmer's Wife

The concept of the Farmers Wife Distillery was formed sharing a fine gin with friends. Living in the country, as 3rd generation farmers, we were inspired to share our love of country life and our passion for creating something unique. I knew it had to incorporate all of my passions: I wanted to create something that encompassed my love for growing food and gardening, my love of family, friends and community and the idea of mastering different flavours to produce something unique and special.

The sense of place to gather is as important as the creation and we would love for you to join us on our journey as we build and grow a home for the Farmer's Wife spirits and most importantly to be inspired by the magic of craft distilling.

Kylie Sepos
