

FARMER'S WIFE
DISTILLERY

**It all started with a Farmer's Wife...
and her love of Gin.**

ALLWORTH, NSW
AUSTRALIA

Who we are

The Farmer's Wife Distillery began in the most humble of places; the old motorbike shed on our farm. What started as experiments with botanicals and late-night recipe testing soon grew into a passion for mastering flavour and crafting spirits that felt genuinely unique. Every batch became a way to celebrate the ingredients we love, the community that surrounds us and the stories of our region.

But it wasn't just about making gin. It was about creating a place to gather. A place where people could slow down, sip something beautiful and feel the warmth of country hospitality. That dream guided us from the shed to the distillery, restaurant and bar we now proudly call home.

Today, craft distilling continues to inspire us because it allows us to share our love of the land, our creativity and our story… one bottle, one cocktail and one visit at a time.

We're grateful for the journey, excited for what lies ahead, and honoured to welcome you to the farm to experience the spirit of The Farmer's Wife.
